How We Will Calculate Your Balance: We use a method called “Average Daily Balance (including new purchases).”

Your APRs will be determined by adding a margin, which will be based on your creditworthiness, to the Prime Rate. For the No Cash Back Rewards Card, a margin of 5.74% to 14.74% will be added to the Prime Rate and the resulting sum will be your APRs. For the Cash Back Rewards Card, a margin of 7.74% to 14.74% will be added to the Prime Rate. For example, if the Prime Rate is 3.25% and, based on your creditworthiness, your margin is 7.74%, your APRs will be 10.99%. Your creditworthiness for either card will be based on your current credit score reported to us by TransUnion. We currently use TransUnion to provide us with your credit score, but we reserve the right to change such agency at any time, without notice. We reserve the right to review your credit score from time to time and to adjust any of your APRs based on such review, which rate will change after we provide any written notice required by applicable law. Your APRs will also vary with the market based on Prime Rate. No notice of these changes is required by applicable law.

**If the minimum required payment is not received within 10 days after the closing date subsequent to the payment due date, a late payment fee of up to \$35.00, or the amount of your minimum payment, whichever is less, will be imposed. More details will be provided in your account agreement.
